

Trust & Wealth
Bespoke Professional Solutions

Trust and Wealth Ltd was founded in 2007 by Alessandro Belluzzo, Managing Partner of Belluzzo International Partners, to provide a comprehensive range of services to professional sports people for the planning and management of their financial affairs.

“Bespoke Professional Solutions” for professional Sports People

To meet our clients’ specific needs, Trust&Wealth has integrated with BIP (Belluzzo International Partners) to create “Bespoke Professional Solutions”. Our advisory services are combined with BIP’s financial and legal expertise from a multidisciplinary team of over 100 professionals.

We serve an international clientele and have a deep understanding of their needs, the dynamics within families, family businesses and personal relationships.

Each of our clients are unique, and our bespoke solutions are tailored to their specific needs.

Our Services for professional Sports People

Our aim at Trust&Wealth is to take the pressure from the sports person, to allow them to concentrate on their sporting career. We have extensive knowledge of the sports sector, and work in synergy with the client to understand their future financial requirements and to put structures into place which will achieve their goals.

We support our clients with all their personal, legal, and fiscal requirements.

From completing tax returns to providing legal assistance related to the regulations in the various countries where sporting events and tournaments are held. If the sports professional has a family, we can assist with their relocation needs abroad or in Italy, from finding schools for their children, to hiring staff.

Our multi-disciplinary team, many of which are qualified to work under more than one jurisdiction, can assist with all legal and fiscal matters of a cross-border nature. For example, a tennis professional will have to make a declaration in the various countries where tournaments are played between the United Kingdom, USA, Canada, France, Italy, Spain and Australia. In this case, we are ready to assist, and can provide a quote on request.
